EXPERIENCE

Verge Aero, Austin — *Associate Creative Director*

March 2024 - Current

Create shows and produce them, talking with the client throughout the process. Work on-site and off hours prepping designs and content.

Use my knowledge and experience of 3D to learn software successfully and become proficient quickly.

Implement AI practices to increase productivity and workflow

Motion Graphics and Physical Artworks, Chicago — *Freelance*

June 2020 - present

Creating and selling concert visualizers to musicians nationwide, infusing new practices and concepts each time.

Designing logos, motion graphics, and visual art for clients, using Cinema 4d, Blender, Maya, and After Effects. Through my connections and online platforms, I can expand my reach.

BUNDLAR, Chicago — *AR Dev and AI research*

May 2023 - August 2023

Driving AI strategies into our Content management system; research and implementation of AI to enhance the User experience.

Producing Augmented Reality experiences for notable clients such as Xbox and Fisher Scientific.

French Butter, Chicago — *Flair 7 camera operator*

May 2023

Utilized my knowledge of other software to master and control the Flair 7 camera in a short period, learning new programs fast.

Created and manipulated keyframes, making a smooth animation sequence for a Hungry Howie's Pizza advertisement.

Austin Event Lighting, Austin — *Lighting technician*

Feb 2022 - present

Constructing sets and lighting rigs for concerts, events, and SXSW.

Gaining knowledge on the various requirements and actions needed for a set up or strike to go according to plan.
